

STUDENT WELFARE POLICY

Green Valley Islamic College seeks to provide a safe and supportive environment which minimises risk of harm and ensures students feel secure, supports the physical, social, academic spiritual and emotional development of students and provides student welfare policies and programs that develop a sense of self-worth and foster personal development.

The Green Valley Islamic College student welfare policy aims to promote the development of individual students, a role it shares with home, to promote self-discipline based on respect for self, peers and others in the school community and to develop attitudes of co-operation, responsibility, tolerance and consideration for others with the aim of creating a suitable learning environment within the school.

Like any other school, Green Valley Islamic College needs to have an effective and appropriate Student Welfare Policy and practices, so that all students and staff can work together in a safe, harmonious and educationally productive environment.

As an Islamic school, Green Valley Islamic College has certain advantages in implementing such a Student Welfare Policy, given that:

- we are a culturally and religiously unified school;
- virtually all students come from an Islamic background;
- as a faith and belief system, Islam embodies a range of values which are highly relevant in forming the basis of a Student Welfare Policy and practices;
- a belief in Islamic values is the fundamental reason for parents choosing to send their children to Green Valley Islamic College.

As a registered and accredited school, Green Valley Islamic College must meet all relevant government requirements, specifically including those of the NSW Board of Studies, and is committed to striving for academic excellence, in a safe and mutually respectful atmosphere, where each individual is encouraged to reach his/her potential.

To ensure that all aspects of the school's mission for providing for a student's welfare are implemented the following policies and procedures were in place or developed during 2005:
